About me

I'm a senior product designer with 9+ years of experience designing SaaS platforms, dashboards, mobile apps and design systems, with a background in motion graphics. I own the work end to end, from research to UI and handoff. I'm AI-native when the work calls for it: I bring in Claude Code and Figma MCP to explore and prototype faster, while the craft and decisions stay mine.

Experience

Sr. Product designer @ Eat App

Dec 2025 - Present · Dubai, UAE (Remote)

Leading web and mobile product design for a restaurant platform: complex workflows, design system and AI features.

Sr. Product designer @ GOAT.tax

May 2025 - Dec 2025 · US (Remote, Contract)

B2B fintech platform for tax workflows: data-heavy dashboards, reporting and a scalable UX system.

Sr. Product designer @ Factor Eleven

Jul 2023 - Feb 2025 · Germany (Remote)

Finance dashboards for an AdTech SaaS platform, from research and concepts to UI and prototypes.

Sr. Product designer @ Globbing

Mar 2022 - Jun 2025 · Contract

Redesigned a package-forwarding app across iOS, Android and web, from user interviews to UI.

Product designer @ Hotelchamp

Mar 2022 - Sep 2022 · Amsterdam (Contract)

Redesigned a hotel-marketing SaaS platform, from UX audit to a new design system.

Product designer @ Sololearn

Sep 2019 - Dec 2022

Led design projects for a coding-education platform, built the design system, mentored colleagues.

Motion graphics designer

2017 - 2023 · ServiceTitan, Netris, Qube LLC

Motion graphics and video, where my eye for animation and detail comes from.
